Mentone 2007

Special Issue.

Are you planning on going to
Mentone?

Flying:

Currently Tim O'Connor (Twinstarr),
Brent Drake (Twinstarr), Dan Regan
(SparrowHawk), and Randy Workman
(Bensen) have expressed an interest in
flying up.

If you are interested in flying up please
contact Tim
(gyro.pilot@yahoo.com)
(513) 477-4488

Current planned departure is Wednesday
afternoon.

Volunteering:

If you would like to volunteer some of your
time while at Mentone please contact
Greg Gremminger
(573) 883-3541 or gyrogreg@idd.net

Other Stuff:

Wireless Internet Access is now available
at the Mentone Airport thanks to donations
and work done by Rick Gilley and Tim
O'Connor. So if you have a computer you
might want to bring it to the convention.

Members Scott Biser and Ed Newbold are
planning on trailering their gyros to
Mentone.

A builders workshop is planned. They
intend to build a complete gyroplane then
fly it, all to be completed during the
convention.

Flying....

Rick Whittridge has completed his Twinstarr and is now flying off his 40 hours phase time.

No final word yet on what gyro(s) he is bringing to Mentone.

Rick has shown up several local fly-ins but he reports that work has been keeping him busy.

Ed Newbold has been flying his Yellow RAF gyroplane a great deal.

Not only has Ed been showing up at fly-ins in his RAF but he was also giving rides for the EAA Young Eagles program for his EAA chapter in Newark Ohio and has been giving gyro training.

If you would like to take training from Ed he can be contacted at (614) 207-3909 or ednewbold@enewbold.com

Randy Workman the chapter president has his VW-Powered Bensen gyrocopter up and running.

He has been flying often and has brought it to the last meeting as well as a recent TSPA fly-in at Double J airport.

The gyro looks and sounds GREAT.

See EVERYONE Saturday!

Rick's Newly restored Twinstarr is flying well!

CFI Ed Newbold giving Young Eagle rides at Newark
